Grading Criteria for Assignment 2

Test on Chrome, Full Size Browser.
We will test with an existing Google Account with 3 random events already inputted.

**Web Design (1.2%)**

A (0.4) The Sign-In page looks similar in style to the sample.
   ● If the page is noticeably not in the center (-0.1)
   ● “Sycamore Calendar” font is similar and it has thick orange lining (-0.1)
   ● Google Sign-In can be any style placed in the middle of “Sycamore Calendar” (-0.1)
   ● Color scheme and font style are exactly or similar to the sample such as No black blocks or missing black blocks in the webpage (-0.1)

B (0.4) The Logged-In page looks similar in style to the sample.
   ● Same criteria applies to A.
   ● ‘Profile’ & ‘Home’ is in the top right corner (-0.1)(a maximum of 0.4 can be deducted for this section)

C (0.4) The Profile page looks similar in style to the sample.
   ● Scroll bar scrolls the events in the ‘Upcoming Events’ box (-0.1)
   ● Profile picture is perfectly round & displays an image (-0.1)
   ● Color scheme and font style are exactly or similar to the sample (-0.1)
   ● Labels & buttons are in their appropriate location of the page similar to the sample (-0.1)

D (0.4) The Home page looks similar in style to the sample
   ● Color scheme and font style are exactly or similar to the sample (-0.1)
   ● Labels & buttons are in their appropriate location of the page similar to the sample (-0.1)
   ● Profile picture is perfectly round & displays an image (-0.1)
   ● Scrollbar scrolls the page in between the two black blocks (-0.1) (If scrolling is not used, page should be static)

**Functionality (2.9%)**

E (0.1) Clicking the logo on any page returns the user to the home page.
   ● In every page besides the Sign-In page, clicking the top left logo, “Sycamore Calendar”, returns the user to the Logged-in Home Page (-0.1)

F (0.6) Users can login and log out their Google account.
   ● Check this functionality by logging into Google (-0.45) this should lead the user to the Logged-in Home page (-0.05)
While in the Logged-In Home page, the ‘Profile’ button leads the user to the Profile Page (-0.05)
While in the Logged-In Home page, the ‘Profile’ button leads the user to the Home Page (-0.05)

G (1.0) Events display in chronological order (earliest on top) from the user’s Google account.

- If events are displayed but it’s not in chronological order (-0.2)
- If no events listed (-1.0)

H (0.5) Outputs an error if the user inputs invalid data when adding an event

- Check by leaving ‘Start Date’ or ‘Start Time’ blank and filled everything else. An error must display anywhere on the page or by alert such as “Event can’t be created: invalid Start Date”.
- This error will ensure that the developer can create an event if the user has the correct inputs.

I (0.7) Adding an event onto their Google Calendar updates when the Profile page refreshes

- After error checking, enter a valid input for an event. If the page refreshes, the new event should be displayed in the Profile in chronological order. If it adds the event but it didn’t add in chronological order deduct -0.2 if haven’t deducted from G.
- Now, check if the event still exist when you log out and log back in. Click on the ‘Sycamore Calendar’ logo on the top left and logout and re-login. Then click on ‘Profile’ to check if the new event still exist. (-0.7)
